

Financial Assistance: Access for Everyone (AFE) Program FAQ

Our Access For Everyone (AFE) program is a comprehensive program that provides financial assistance for those in need.

What services are eligible for the AFE Program?: The services eligible for Financial Assistance are those provided by NeuroBalance Center; specifically, eligible services are Health & Wellness Training and Personal Training; massage services can be covered on an as-needed basis. Excluded from eligibility are Group Fitness Classes, Transportation, and any Insurance-Based Services provided by those who operate under the NeuroBalance Center non-profit and accept insurance through their own private business.

How do I know if I will qualify?: Each individual application is taken under consideration. However, NeuroBalance Center Services are already offered at a discounted rate and not every applicant will qualify for assistance. We base our eligibility model on Medicaid Eligibility for the State of Illinois and utilize information from the [American Council on Aging](#); this also matches the [U.S. Department of Health and Human Services 2024 Poverty Guidelines](#).

How do I apply?: Applicants must fully complete the application and provide supplemental proof of household income by way of a federal tax return for the previous tax year; each application will qualify the application for one year of Financial Assistance, after which point the application must reapply. AFE applications can be requested by NeuroBalance Center Management or Reception; Service Providers do not distribute the forms directly. Should Management or Reception not be available to provide an application, such as when a request is made outside of business hours, the application can be found on our website for download. Applications can be submitted to Reception or Management upon completion; only fully completed applications, including all supporting documentation required, will be taken into consideration.
